

# The Techniques of Bowing. Op.50

A. Casorti

## INTRODUCTION

### *The Six Fundamental Bowings*

**T**HERE are six fundamental bowings; all others are variously combined from these. I cannot too urgently advise young violinists to study these six bowings diligently, they being the foundation of and key to all the rest. They are classified thus:

1. The rapid detached stroke with whole bow (*grand détaché*).
2. The singing stroke.
3. The hammered stroke at the point (*martelé*).
4. The detached stroke with the forearm (*détaché*).
5. The springing bow.
6. The thrown stroke.

For the execution of these six bowings, see Nos. 5, 10, 4, 11, 15 and 17. For the development of the right arm, see Études 2, 3 and 4.

### *Rules for Bowing*

1. To get a fine tone the bow must be drawn, up or down, at a right angle to the strings; and on no account should it be allowed to slide from the bridge towards the fingerboard, or *vice versa*.
2. The bow should be kept between fingerboard and bridge, somewhat nearer to the latter.
3. The hair must lie flat upon the string, and the stick should be tilted a trifle toward the fingerboard.
4. In order to produce an elastic and sympathetic tone, do not draw the hair too taut with the screw.
5. Never hold the bow too tight; for the wrist and the various joints of the hand and fingers must always be kept perfectly flexible. The thumb, by aid of which the bow is balanced, should be kept slightly bent.
6. Always hold the elbow lower than the stick, so that the arm may not weigh upon the strings and impair the quality of the tone.
7. In *down-bow* the forefinger should press lightly on the stick to keep it steady; in *up-bow* the little finger presses, with the elbow drawn inward and the wrist gradually lifted so as to resume its correct position over the bridge.
8. All movements of the bow must be directed solely by the wrist and forearm, never by the upper arm or the shoulder.
9. By maintaining the string in steady and equable vibration, a tone can be developed which will "carry" to a great distance,— but not by exerting an exaggerated pressure of the hair on the string
10. All accents must be produced with the wrist by a slight pressure of the hair on the string and of the stick between the fingers.
11. The hair should never leave the strings; and great care must be taken to avoid interrupting the tone on changing from down-bow to up-bow, or the reverse.

### *How to Hold the Left Hand*

In stopping tones, the fingers must press firmly on the strings; they must also be raised high enough to produce, in falling, the effect of little hammer-strokes. Hold the left elbow in front of the chest, to give the fingers their proper position over the fingerboard; by this means you will avoid drawing the strings out of line, which would lessen the sonority of the tone.

### *Signs*

□ = Down-bow.

∨ = Up-bow.

← signifies that a whole bow is to be taken for one note (or two slurred notes).

A-B shows which portion of the bow is to be employed.

### §1. Legato Stroke Near the Nut

Performed entirely by the wrist, with a short bow, and holding the stick lightly between the fingers.

Play the notes in a smooth legato, the wrist held above the bridge without letting the arm weigh upon the strings.

**Allegro**

#### ÉTUDE I

#### Allegro

First time, down-bow; second time, up-bow

 Copyright renewal assigned, 1939, to G. Schirmer, Inc.  
 Printed in the U.S.A.

### § 2. Legato Stroke Near the Point

To be executed entirely by the wrist, bearing slightly with the forefinger upon the stick to keep the hair evenly down on the strings. It should also be practised at the middle of the bow, as this requires still greater independence of the wrist.

**Allegro**

### § 3. Hammered Stroke Near the Nut

Each note must be accented, but not roughly, by pinching the stick lightly between the fingers without any stiffening of the wrist. Execute with short bow, and let the string vibrate.

**Allegretto**

## Third Fundamental Bowing

### § 4. Hammered Stroke Near the Point. (Martelé)

To be executed with the wrist, aided by the forearm. All the notes should be uniformly articulated and accented by pinching the stick slightly between the fingers. Employ the same length of bow for each note.

**Allegretto**

## First Fundamental Bowing

### § 5. The Rapid Detached Stroke. (Grand Détaché)

It must be executed with the whole bow with the rapidity of a  The difficulty to be o-

vercome is, to keep the bow at a right angle with the strings, both for down-bow and up-bow, without lifting before each note. When either point or nut is reached, the arm should come to a dead stop. Each note is to be strongly

accented, but only by the wrist and without roughly scraping the strings. The stick should be held lightly between the fingers.

*N.B.* All strokes ought to be practised at first on the open strings, and then with the finger-exercises.

B                      A

**ÉTUDE II**  
**Adagio**

*f* *segue* *segue* *4*

### § 6. Mixed Bowings

The first measure with the martelé - stroke at the nut of the bow, the first and last note of the second measure with the rapid detached

stroke, followed by the martelé-stroke at point or nut, according to the position of the bow.

**Allegretto**

*nut* *rapido* *point* *rapido* *nut* *point*

### § 7. Detached Stroke Near Nut

To be executed without accent, somewhat more bow being employed than for the hammered(mar-

telé) stroke. The wrist must be kept very supple.

B                      A

**Allegro**

### § 8. Detached Stroke with Whole Bow without accent

This bowing-exercise aims at entire independence of the forearm and its complete development, and likewise at acquiring a full volume of tone without bearing too heavily on the strings. For up-bow the wrist must be lightly raised, that it may not bear down on the strings; for

down-bow the arm is to be extended to its full length, always holding it lower than the stick.

This stroke should be executed with full energy, and with scrupulous avoidance of interruption between the separate notes.

#### ÉTUDE III

**Allegretto** First time *f*, second time *p*

## § 9. Detached Stroke with Double-Stops

To be executed in the same manner as the preceding Étude. The hair must press firmly on both strings; and do not neglect to tilt the

stick a trifle toward the fingerboard, so that the vibration of the strings may not be interfered with by the trembling of the stick.

### ÉTUDE IV

**Allegro** First time *f*, with full tone. Second time *pp*

The musical score for Étude IV is presented in a single system with eight staves. It begins with a treble clef, a key signature of one sharp (F#), and a common time signature (C). The piece is titled "ÉTUDE IV" and is marked "Allegro". The first performance is indicated by the dynamic marking *f* (forte), and the second performance is indicated by *pp* (pianissimo). The score features numerous double-stops and detached strokes, with fingering numbers (1-4) clearly marked above the notes. A double bar line near the beginning of the first staff is labeled with "B" above and "A" below. The piece concludes with a fermata over a final double-stop chord.

## Second Fundamental Bowing

### §10. The Singing Stroke

To be executed without the least break in the notes between up-bow and down bow, the hair lying flat on the strings. The tone should be powerful, and the change from up-to-down-bow should be imperceptible. At *f* the tone must not

lose in fullness when about to pass to *p*, neither must it increase at *p* when about to pass to *ff*. In *f* the stick should be pressed slightly between thumb and forefinger, and should move freely in the fingers at *pp*.

B                      A

ÉTUDE V  
Adagio

The musical score for Étude V, Adagio, is written in G major (one sharp) and common time. It consists of four staves of music. Above the first staff, there are two horizontal lines labeled 'B' and 'A' with arrows pointing to specific notes. The music features various dynamics including *ff*, *pp*, *f*, and *ppp*, along with fingerings (1, 2, 3, 4) and slurs. The tempo is marked Adagio.

## Fourth Fundamental Bowing

### §11. Detached Stroke of the Forearm

The strings must be touched energetically, but not roughly. Executed by a half-bow across

the strings, which must be kept in equable vibration to develop a full tone.

Wrist and finger-joints must be flexible, and the stick held lightly between the fingers. This bowing must be executed with breadth and energy.

**ÉTUDE VI**  
**Allegro** *Broad*

The musical score is written for a single system of ten staves. It begins with a treble clef, a key signature of two flats (B-flat and E-flat), and a common time signature (C). The first staff is marked with a fortissimo (*ff*) dynamic. The music consists of eighth-note patterns with various fingerings (0, 2, 3, 4) and bowing techniques. Above the first two staves, there are markings 'B' and 'A' with a horizontal line connecting them, indicating a specific bowing exercise. The piece concludes with a final chord and a fermata.

This bowing must also be practised with the finger-exercise for springing bow, page 11.

### § 12. Undulating Stroke

Execute with whole bow and from the wrist, the bow gliding gently over the strings. The undulatory movement must be kept up from nut to point throughout the down-bow, and likewise throughout the up-bow. The movement of the bow in passing from one string to another must

be imperceptible, and the hair must nearly rest on both strings at once, to avoid executing the undulating movement by the arm. The movement should be very rapid, and the execution spirited.

### § 13. Combined Bowings

For the legato notes the whole bow is taken. The staccato notes are executed alternately with

the forearm and nut. This bowing requires an extremely supple wrist.

### § 14. Sparing the Bow

Not more bow should be employed for the three legato notes than for the one staccato note; above all, there must not be the slightest break

between them. The strongly detached note must be executed by the wrist alone.

Up-bow

Up-bow

**Energico** 1<sup>st</sup> time at point. 2<sup>d</sup> time at nut

**Largamente**

point nut

Short bows, the > strongly accented.

BA

**Allegro**

## Fifth Fundamental Bowing

### § 15. Springing Stroke

Executed by the wrist, at the middle of the bow. The stick must play freely between the fingers, so that it can rebound on the strings. The bow is

to be kept nearer the bridge, the elbow drawn inward. The notes should be very distinctly detached, employing short bows.

Exercises for the springing bow, and the detached stroke with the forearm. (It. *Spiccato*.)

**Allegro**

BA

**B**

Musical score for section B, consisting of six staves of music in G major, 3/4 time. The first staff starts with a forte (f) dynamic and includes fingerings 4 and 0. The second staff includes fingering 1. The third staff includes fingering 0. The fourth staff includes fingering 3. The fifth staff includes fingerings 4 and 0. The sixth staff ends with a fermata over a whole note chord.

On the G-string

**C**

Musical score for section C, consisting of four staves of music in G major, 3/4 time. The first staff starts with a forte (f) dynamic and includes fingering 4. The second and third staves feature sixteenth-note patterns. The fourth staff ends with a fermata over a whole note chord.

The musical score consists of ten staves. The first five staves are in the key of B-flat major (two flats) and common time (C). The first staff begins with a dynamic marking of *mf* and contains a series of chords and single notes. The second staff features a continuous sixteenth-note pattern. The third and fourth staves continue this sixteenth-note pattern with varying rhythmic groupings. The fifth staff concludes the first system with a final note and a double bar line. The last five staves are in the key of D major (two sharps) and common time. The sixth staff begins with a dynamic marking of *mf* and contains a series of chords. The seventh, eighth, and ninth staves feature a continuous sixteenth-note pattern. The tenth staff concludes the second system with a final note and a double bar line.

*6 times*

The image displays a musical score for violin, consisting of ten staves of notation. The first three staves are in the key of B-flat major (two flats) and 2/4 time. The first staff begins with a *cresc.* marking. The second staff includes fingering numbers 4, 3, 4, and 3. The third staff includes a *dim.* marking and a fingering number 4. The fourth and fifth staves are in the key of F major (one flat) and 6/8 time, starting with a *f* dynamic marking. The sixth and seventh staves are in the key of F major and 3/4 time, featuring triplet markings. The eighth and ninth staves are in the key of F major and 3/4 time, with fingering numbers 0, 1, and 0. The tenth staff is in the key of F major and 3/4 time. The score includes various bowing techniques such as slurs, accents, and dynamic markings.

Étude on the Sautillé  
Allegro molto

*p*

A B

0 0 0 0

Detailed description: This block contains three staves of musical notation. The first two staves are marked '6 times' and show a sequence of notes with slurs and accents. The third staff is marked '2' and shows a similar sequence. Below these is the title 'Étude on the Sautillé' and 'Allegro molto' in a smaller font. The notation includes a piano (*p*) dynamic marking and four '0' symbols under the notes. A bracket labeled 'A B' spans the first two staves.

### § 16. Springing Stroke (Sautillé) across Three Strings (It. *Saltato*.)

The difficulty of this exercise consists in passing over from one string to another with very light bow. The first time, this stroke should be executed without expression, the second time

observing the marks of expression.

*Forte* passages to be played with detached stroke with forearm; *piano*, with springing bow.

*f*

*p*

*f*

*pp*

*f*

*pp*

Detailed description: This block contains four staves of musical notation for 'ÉTUDE VII Allegro'. The notation is complex, featuring many slurs, accents, and dynamic markings. A bracket labeled 'B A' is positioned above the first staff. The dynamics include *ff*, *pp*, *f*, *pp*, *cresc.*, *ff*, *pp*, *f*, *p*, *f*, *pp*, and *f*. The notes are densely packed, characteristic of a Sautillé exercise.

## Sixth Fundamental Bowing

### § 17. The Thrown Stroke

It is distinguished from the others in being executed entirely by the arm; the bow is lifted between each two notes, then being allowed

to fall again in the same place. The notes must be distinctly articulated, the stick pressed somewhat between the fingers.

### § 18. Staccato

The first note must be accented by suddenly holding back the bow. The main point is, to keep exact time with short bows in an allegro movement. One need not take it too much to heart if in the beginning the notes are not equally accented, for this imperfection will dis-

appear after a time. After the accent on the first note the stick must be held lightly between the fingers, and the wrist kept perfectly supple.

The staccato should never be executed either by the upper arm or by the shoulder.

The image displays a series of musical staves labeled K through S, illustrating various bowing techniques. Each staff begins with a treble clef and a common time signature (C).  
- **Staff K:** Shows a sequence of eighth notes with a slur and a bowing direction symbol (V) above the staff.  
- **Staff L:** Similar to K, but with a different rhythmic pattern.  
- **Staff M:** Features a sequence of sixteenth notes with a slur and a bowing direction symbol (V) above the staff.  
- **Staff N:** Shows a sequence of eighth notes with a slur and a bowing direction symbol (V) above the staff.  
- **Staff O:** Similar to N, but with a different rhythmic pattern.  
- **Staff P:** Features a sequence of sixteenth notes with a slur and a bowing direction symbol (V) above the staff.  
- **Staff Q:** Similar to P, but with a different rhythmic pattern.  
- **Staff R:** Shows a sequence of eighth notes with a slur and a bowing direction symbol (V) above the staff.  
- **Staff S:** Features a sequence of eighth notes with a slur and a bowing direction symbol (V) above the staff. Above the staff, there are two diagrams: one labeled "B A" and another labeled "A B", each with a horizontal line and arrows indicating the direction of the bow stroke.  
- **Staff below S:** Shows a sequence of eighth notes with a slur and a bowing direction symbol (V) above the staff. The word "Voli" is written at the end of the staff.

### § 19. The Sustained Tone

The sustained tone is at once the most difficult and the most important of all strokes. It is executed with whole bow, without expression and with a mere breath of tone, letting the bow move smoothly and imperceptibly. The duration of each bow should be one minute.

Viotti, having neglected playing for a time, practised the sustained tone for two hours with and without finger-exercises; and then remarked

that his fingers felt as if he had never been out of practice.

For those who feel timidity before an audience, the practice of the sustained tone is indispensable for steadying the nerves and giving precision of bowing. It is also well to execute this bowing with a full tone, in which case the duration of the sustained tone is 30 seconds.

**Adagio** Duration 1 minute

Duration 44 minutes

## § 21. Melody in Sustained Tones

### Adagio

Duration, 1 minute for each measure

## § 22. Sustained Tones in Double Notes and *ppp*

The difficulty is, to bring the two strings into vibration simultaneously, and to maintain this vibration evenly from the nut to the point.

The hair must first be set upon the strings; then sustain the tone without accent and without interrupting the tone between the notes. In the middle of the bow the forefinger must be pressed on the stick to keep it from trembling.

For the up-bow lift the wrist towards the middle of the bow, in order to sustain the tone to the nut. The duration of each bow is 30 seconds.

*N.B.* These exercises also have the particular advantage of steadying the bow on the strings; they contribute toward the elasticity of the tone by making it sympathetic.

## How to Sustain Double Notes with a faint, scarcely perceptible tone

**Adagio**  
30 Seconds

This musical score consists of five staves, numbered 1 to 5. Each staff begins with a treble clef and a common time signature (C). The first staff has a repeat sign and a *ppp* dynamic marking. Above the first two staves, there are two horizontal lines labeled 'A' and 'B' with arrows indicating the duration of the notes. The second staff has a *ppp* marking. The third staff has a *ppp* marking and a '30 S.' marking above it. The fourth and fifth staves also have '30 S.' markings and *ppp* markings. The notes are primarily double notes (dyads) with various fingerings indicated by numbers 1-4 and sometimes 0 (open string).

## Sustaining of Tone with Finger-exercises

30 Seconds

This section contains five staves of finger exercises. Each staff begins with a treble clef and a common time signature (C). The first staff has a *pp* dynamic marking. The exercises consist of continuous sixteenth-note patterns across the staff, with various fingerings indicated by numbers 1-4. Some exercises include slurs and accents. The second staff has a 'V' marking above it. The third staff has a '3' marking above it. The fourth staff has a '1' marking above it. The fifth staff has a '2' marking above it.
